RE: 801 Mountain View Place, Anderson & Homeowners Class

Dear Ms. Acuff;

This letter is to speak to my previous experiences in construction and home ownership.

In past employment situations, I have worked in the construction field. I was responsible not only for hands on construction work but also placed in a supervisory role. It was in this role that I ensured the other employees were properly doing their tasks within the job site. This, on occasion, meant that I needed to instruct them on the proper methods of each task. I believe this knowledge and experience will enable me to properly care and upkeep our new home.

My wife and I have also previously been home owners. We purchased a small, two bedroom home when we were first married. I am confident in my knowledge of this responsibility and feel that we are ready for the responsibility of owning this new home.

Due to the aforementioned experiences, I request a waiver on the requirement to take a Homeownership Education class.

Thank you for your time. Please feel free to contact me if you have any questions.

Sincerely,

William D Hilburn

William D. Hilburn
